PRODUCT LINE SHEET

PE - FOAM PRODUCT

Polyethylene foam, or Extruded Polyethylene, is an economical solution for protective wrapping. PE Foam is soft flexible and non abrasive.

PE foam is light weight, easily fabricated, water resistant, flexible & high performance.

Whether anti-stat, flat, or specific color we have the ability to produce a product to meet your needs.

MARKET AND USES

- construction
- military
- floor underlayment
- packaging
- surface protection
- automotive
- recreational
- agriculture
- thermal insulations
- vibration dampening
- sports & leisure
- void fill
- medical
- marine
- buoyancy component
- computer protection
- insulation

- Rolls can be perforated for easy tear off
- Additional pricing for slits under 6" and perforations under 12"
- Anti-stat/White
- Available Thickness: 1/32", 1/16" , 3/32", 1/8" 3/16" 1/4" 3/8" & 1/2"
